

Challenge 3:

Can you learn about a local, outdoor area and write about it? Perhaps a fact file....or a piece of reflective writing, describing the place and how it is/ was used? What about a poem which reflects what you've learnt? Perhaps a piece written from the viewpoint of a person who used it/ uses it? Or the viewpoint of a tree that has watched the area evolve over time....This challenge gives you the chance to look into an area, to find out its history/ its purpose/ its impact etc and share your findings in a creative way! It's up to you how you approach this!

Pop this booklet into the postbox (in the triangle at school) after Easter to get your MOLE challenges signed off and to be entered into our prize draw! :-)

**Back to Basics
AND
'MOLE'
Easter Challenge!**

Can you 'KEEP LEARNING' over Easter?

There are some challenges inside.....

You will be able to tick off some of your **HOMELY MOLE and **LEARNING MOLE** challenges if you do these - as well as be entered into our prize draw!**

Remember to post this booklet into the post box in school after the Easter break!

Name: _____

Class: _____

Continue the good work from our B2B 'Keep Learning' week.

Learning does not just mean studying hard! You can learn loads of things in loads of different ways! Be creative—you can record anything else which you have learnt on here too!

Have fun!

Challenge 1:

The weather is getting better....get outside and take part in some physical activity! It might be a walk or a run, or maybe you could set up an obstacle course in your garden or challenge yourself to complete all the different pieces of equipment at a local park in a set time! Write down what you did! **What did you learn?** Eg a new walking route / about how your heart rate changes after activity/ how to design a fun obstacle course etc....

Challenge 2:

Go to the beach and investigate the wildlife there! Perhaps look in the rock pools....or spot the different types of birds...or could you identify some of the plant life?

(Tip: Take a look at Calshot and Lepe websites—they both run ranger-led 'Marine Explorer' type activities for children. You can learn about the environment whilst enjoying being outside!)

Share what you discovered—pictures/ notes etc

**Hampshire &
Isle of Wight**
Wildlife Trust

This website is a great place to start to help you to learn about and identify wildlife in our area! <https://www.hiwwt.org.uk/wildlife>
